Health and Safety

Assuring the health and safety of each camper is important to us at camp! We will require a complete health form **and picture** from every camper. Campers are covered by a supplemental health and safety policy while involved in camp programs. Activities are supervised by trained counselors and adult staff. Physical or health problems should be shared with the camp health staff who are on duty 24 hours per day. Serious injuries or illness will be handled through the Licking Memorial Hospital or Knox Community Hospital and parents will be contacted immediately. **Also, for our youth safety NO electronic communication devices/cell phones are allowed by campers and counselors during camp.**

What do campers do at camp?

You'll have fun meeting other kids from Morrow County while participating in a variety of camp sessions/activities like crafts, archery, nature sessions, stream study, Native American living, pioneer living, swimming, canoeing, singing, hiking, team challenge, high ropes, zipping, climbing wall, and more. During other times all youth will get the chance to experience cooking over a campfire, going to camp fire programs, flag programs, fun all camp evening recreation, fun skits, sports and games of all kinds, learning independent living, making decisions and much more!
