# Constitution of the Morrow County 4-H Horse & Pony Advisory Committee

A constitution establishes the existence of an organization, its philosophy, the composition of the membership, and a system of fundamental principles by which the Committee is governed.

- The name of this Organization shall be the Morrow County 4-H Horse & Pony Advisory Committee. The Committee will make recommendations to the State 4-H Horse & Pony Committee for State Fair selection procedures plus any other activities relevant to the perpetuation of 4-H Horse & Pony projects in Morrow County.
- Membership shall be made up of all Horse & Pony Advisors, Middle Managers and each Club's 4-H Members.
- Each 4-H Club will be allowed as many votes (per club) as the club with the least number of advisors. If an advisor is not present, a Parent or 4-H Member may substitute for that vote. (Example: the group with the least number of Advisors will determine the number of votes per club)

Meetings will not exceed two hours in length unless the Committee approves a time extension in the session.
- There must be at least three of the enrolled clubs present to transact business at regular meetings.
- If a club is not represented at two consecutive meetings, that club will lose one voting privilege until they attend two consecutive meetings again. If a club is not represented at six total meetings during the year, they lose both votes until they attend two consecutive meetings again for each voting privilege. A new 4-H club must attend two consecutive meetings before they have voting privileges for non-executive positions. For executive positions, new clubs cannot vote until after May 31, and they have attended two consecutive meetings; with the exception of advisors already having been an advisor the previous year in a horse and pony club. New advisors may not hold an executive position for one year.
- **It is mandatory that all horse and pony clubs have representation at a minimum of six advisory meetings. All members with horse and pony projects entered in Junior Fair and not belonging to an acknowledged 4H horse and pony club must attend no less than the 4-H Horse and Pony Advisors meetings in April, May, July, and August to receive paperwork & necessary information.**
- The President may only vote to break ties.
- The fiscal year term will be October 1<sup>st</sup> through September 30th.

## **Ohio 4-H Protective Headgear Rule**

All youth age 19 and under, participating in any 4-H equestrian activity, are required to wear properly fitted protective headgear which meets or exceeds current ASTM (American Society for Testing and Materials)/SEI (Safety Equipment Institute) standards with the chin harness securely fastened at all times while riding or driving an equine. It is the responsibility of the rider, or the parent or guardian of the youth participant, to make sure that the headgear worn complies with appropriate safety standards for protective headgear intended for equestrian use, and is properly fitted and in good condition. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders are not responsible for checking headgear worn for such compliance. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders make no representation or warranty, expressed or implied, about any protective headgear, and cautions riders that death or serious injury may result despite wearing such headgear, as no helmet can protect against all foreseeable injuries in equestrian activities. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders may, at his/her discretion, check a participant's protective headgear for proper standards. If the youth is found to be wearing unapproved, defective, or improperly fitted headgear, he/she will not be permitted to participate in riding or driving activities until proper headgear is acquired.

## **Ohio 4-H Horse Program Protective Headgear Policy**

### **Frequently Asked Questions\***

1. Is protective headgear required to be worn at mounted meetings, trail rides, or other 4-H equestrian events?

Yes. Properly fitted ASTM/SEI approved protective headgear intended for equestrian use is required to be worn by all youth ages 19 and under while riding or driving an equine at any 4-H sponsored activity.

2. Many open horse shows that are NOT sponsored by 4-H have classes for 4-H members only. Are helmets required to be worn by 4-H members if they participate in such classes? The Ohio 4-H Protective Headgear Rule is in effect for 4-H sponsored shows and activities only.

3. Does protective headgear have to be worn in showmanship classes?

No. Properly fitted ASTM/SEI approved protective headgear intended for equestrian use is required when a youth is riding or driving an equine during any 4-H activity, not when exhibiting an equine in-hand. However, the use of protective headgear intended for equestrian use is encouraged in all classes, and any exhibitor may wear protective headgear in any class without judging discrimination.

4. What style protective headgear should be used for western or driving classes?

Any style of ASTM/SEI approved protective headgear intended for equestrian use is allowed in western or driving classes, including western, english, or schooling helmets. It is the responsibility of the rider, or the parent or guardian of the youth participant, to make sure that the headgear worn complies with appropriate safety standards for protective headgear intended for equestrian use, is in good condition, and is properly fitted with the chin harness fastened at all times while riding or driving.

5. Are helmets required when riding outside the show ring?

All youth age 19 and under, participating in any 4-H equestrian activity, are required to wear properly fitted ASTM/SEI helmet intended for equestrian use with the chin harness securely fastened at all times while riding or driving an equine anywhere on the competition grounds. Any exhibitor found in violation of this rule at any time will be prohibited from participating until proper safety headgear is in place.

6. Are bicycle or other helmets with a harness allowed?

No, bicycle helmets or hunt caps with a single chin strap are NOT acceptable. Only ASTM/SEI approved protective headgear intended for equestrian use is allowed.

7. May protective headgear be modified in any manner?

No, other than to adjust the fit with pads supplied by the manufacturer.

8. May helmet covers be used?

Covers may be used provided they can be removed for inspection of the helmet if necessary.

9. How should show committees or officials enforce the rule?

The Ohio 4-H protective headgear policy should be included in the show/event program or in the event rules. The show committee or officials are not required to inspect protective headgear unless the appropriateness of such headgear is questioned. In such cases, the show committee or officials have the authority to inspect the headgear and enforce the rule as stated in the current Uniform Rules for 4-H Horse Shows (4-H 179). Any exhibitor found to be in violation of the rule will be prohibited from further participation until appropriate headgear is properly in place.

10. If it is determined during a show class that an exhibitor is using inappropriate headgear, how should the show committee or officials respond?

If the show committee or officials determine that the headgear is inappropriate and the exhibitor is in violation of the protective headgear rule, the exhibitor will be disqualified from that class. The exhibitor should be prohibited from further participation until appropriate headgear is properly in place.

11. How should a show committee or official respond if it is questioned that an exhibitor is riding with headgear that is not in compliance with current rules (i.e. currently riding in a class or riding on the show grounds)?

If it is brought to the show committee's or show official's attention that a youth's headgear is questionable, the show committee must immediately investigate and determine the accuracy of the report. If the headgear is not in compliance with the protective headgear rule, the show committee or official must prohibit the exhibitor from further riding/driving until properly fitted ASTM/SEI approved headgear is in place. The show committee or officials may investigate the appropriateness of headgear without a formal protest.

12. Should counties or 4-H clubs buy helmets for use by 4-H members at 4-H sponsored events?

No. Protective headgear should only be purchased or owned by the 4-H member or their parent(s) or guardian(s). It is the responsibility of the rider, or the parent or guardian of the youth participant, to make sure that the headgear worn complies with appropriate safety standards for protective headgear intended for equestrian use, and is properly fitted and in good condition.
