

Morrow County SCARLET & GRAY News

Volume 20 Issue 1 • February/March 2024

What are the Facts??

Information about the OSU Extension – Morrow County Renewal Levy!

On the primary ballot, Tuesday, March 19, 2024, there will be a 0.5 mill tax renewal levy for 5 years to support OSU Extension - Morrow County which includes services and programming in the areas of 4-H Youth Development, Agriculture and Natural Resources, Family and Consumer Sciences, Community Development and SNAP-Ed Nutrition Education for Morrow County citizens. This is a **RENEWAL!** A Renewal Levy means **NO** New Taxes/Increases, even with County-wide Reappraisals of Property Value!!!! There are some factors that would increase the amount paid but that would be on a property-by-property change as determined by the county Auditor only.

Why do you need a levy?

In 2009, OSU Extension - Morrow County only received \$6,250 of an annual budget request from the Morrow County Commissioners. This cut is due to the Morrow

County financial crisis and a 1.3-million-dollar county budget shortfall for that year. The Morrow County Commissioners had to make cuts to balance the budget, cutting OSU Extension and other departments. In that budget planning the County Commissioners proposed the levy to help with the budget shortfall. In 2009, OSU Extension passed the first levy to support the OSU office, renewed it in 2014 and then in 2019. It is up for the 5 year renewal.

Why can't you get funding from Ohio State University?

No OSU tuition, athletics or medical center funds help pay for OSU Extension at the county level. Only county, state and federal Extension funds support Extension office programming. Ohio State University Extension has an agreement with Ohio county governments in which a county must first support OSU Extension financially before

state government and federal Extension funds additionally support the county OSU Extension program. These additional Extension state and federal funds are separate from higher education funding. Approximately, 40% of the educator salaries and benefits are paid by state and federal dollars. OSU Extension – Morrow County is your connection to the trusted resources of The Ohio State University since 1919, but not funding.

What happens if the levy fails?

Programs and services conducted by OSU Extension - Morrow County, including 4-H will be **eliminated** unless funds are made available from the county. Last year 2,700 youth received 4-H educational programming. See the additional programming that would be cut as described in this newsletter.

Can 4-H members participate in another county program?

Ohio 4-H rules state that youth

members are to participate in their county of residence. This is a funding issue, taxpayers in another county do not want to support educational programs for Morrow County youth. It puts the burden on their county commissioners and taxpayer dollars. The same would be for Morrow County taxpayers and the county commissioners, they don't want to pay to help educate another county's youth. The cross-county line 4-H policy is void when there is no Extension program in the county of residence. In short, no Extension program in a county means all 4-H membership opportunities end for the residents of that county.

Can Morrow County youth take their 4-H projects to the Ohio State Fair?

The Ohio State Fair rules state that youth must be a member of Ohio 4-H or FFA to participate in Jr. Fair Livestock competition. That is also the case for the 4-H horse projects, 4-H small animal projects, and 4-H "still" projects such as clothing, nutrition, robotics, fishing etc. If there is no OSU Extension Office in a county there is no 4-H program in that county and no 4-H projects are eligible to attend the Ohio State Fair Jr. Division competition. Morrow County youth not in FFA could only participate in the Ohio State Fair Open Class Divisions for livestock/horses/dogs.

Will we have a fair if the levy fails and there is no Extension county funding?

Yes, Morrow County can have a fair! OSU Extension - Morrow County and the Morrow County Agriculture Society are separate entities and are financed separately. Morrow County youth could have the opportunity to participate in the fair as decided by the Agriculture Society, but not as 4-H members. Their 4-H membership and clubs will end if funds are not available to support Extension. Also, no Extension funds pay for the Jr. Fair Coordinators employed by the Sr. Fair Board. 4-H teens and volunteers with a Jr. Fair role would no longer be organized

and supported by Ohio 4-H.

What's it going to cost me?

Information based on Morrow County appraisal of property in 2009. For a 0.5 mill levy, homeowners would pay approximately \$17.50 per year, per property valued at \$100,000. There are other reductions each property owner could have which would reduce this amount paid.

How much will the levy provide in funding to the Extension Office?

Because it is a Renewal from 2009 it is valued as a .41 mil levy! Dollars received also change each year because of the constant change of existing 2009 use of land, housing, and businesses. Historically, we have received anywhere from \$300,000 to \$340,000 even though the Auditor lists the next potential amount of as \$406,000. New and reduction of housing on properties and businesses coming and going add to or reduce a renewal levy.

Isn't this levy just for 4-H?

No, it is for the OSU Extension - Morrow County office which provides leadership to the following program areas: 4-H Youth Development, Agriculture and Natural Resources (including Master Gardeners), Family and Consumer Sciences (including SNAP-Ed nutrition education), and Community Development.

Who will receive the funds collected by the levy?

These funds will not go into the county commissioner's fund or another county fund/agency. All the funds collected by the levy must go directly to and used by the OSU Extension - Morrow County office for the citizens of Morrow County!

Has this been done before?

Currently, twelve (12) other counties across the state are successfully funded by county Extension levies. Noble County has been a levy supported county since 1986.

Why should I pay for something extra that my taxes should be paying for?

Renewal Levy

continued from page 1

As you look at your property tax statement, very little of your current taxes go to the general county fund through which Extension was funded before 2009. The county government relies on this little amount of money, sales tax revenue, and investments to run Morrow County. All these annual funds have not met the demand and mandates for these funds.

Why not use an income tax levy?
Current Ohio law does not allow us to use income tax levies.

Will my taxes go up each year?
This is a Renewal from 2009. Unless the county Auditor changes your property values on an individual basis, NOT countywide reappraisals it will stay the same. We are receiving about the same dollars each year.

Who decides what the levy money is used for?

Morrow County citizens, Morrow County program Extension Educators, and the county Extension Advisory Committee (made up of Morrow County citizens) all work together to decide the needs of Morrow County. The needs of our county as well as research available establish programming and where dollars are to be spent. The more dollars available the more programming OSU Extension can provide to a county.

How has the Extension office changed since the first levy was passed?

As promised in the first levy we have become a full-service office offering all Extension program areas. We hired Educators to meet the programming needs of our county and expanded our educational impact to reach more audiences. We will continue to survey and assess the needs to help our citizens. Please take our surveys to help decide where dollars will go.

How are dollars being used for your new office space?

Several years ago, we moved into the new Ag Credit Agriculture Center. Our OSU Extension office did NOT put any money into constructing this building. Our rent is 40 cents LESS per square foot for our usable space and we have free use of a large education/conference room with additional technology included. While at the Wil-

helm Building, we were paying additional dollars to rent spaces for large education programs. That is no longer an issue at the Ag Credit Building.

How is a levy campaign financed?
Money used to support and finance the levy campaign is raised by the levy committee. All costs of the levy campaign are paid with contributions from supporters of OSU Extension - Morrow County only. No taxpayer dollars go into the levy campaign.

How can I help?
You can become involved in the campaign by talking to friends, neighbors, and co-workers about the importance of these services to Morrow County citizens. Help is needed to work on campaign promotion and donate to the levy fund through treasurer, Melissa S. Kidwell, 5790 CR. 20, Mt. Gilead, Ohio 43338.

Can someone donate to the operations of OSU Extension - Morrow County?

For years other moneys, either donated or raised, have financially supported specific programming of the OSU Extension - Morrow County office. This donation would be a tax-deductible donation. Please contact the Morrow County OSU Extension Office for more information.

What youth can participate in 4-H?

Youth ages five and in kindergarten to 19 all may join the traditional club 4-H program all year long. 4-H club members live in all townships of Morrow County! Beyond traditional 4-H club membership we offer youth education programs countywide at libraries, parks, and schools. We partner with county agencies, organizations and schools to provide many programs.

What is OSU Extension - Morrow County?

OSU Extension - Morrow County has been educating Morrow County since 1919. OSU Extension - Morrow County is your connection to the trusted resources of The Ohio State University. We offer practical information on issues of home, family living, agriculture, horticulture, businesses, community, and well-being that improves your everyday life.

AGRICULTURE

Carri Jagger
Ag & Natural Resources Educator
(jagger.6@osu.edu)

Agriculture, Horticulture & Natural Resources Highlights for the past five years

Below are examples of the agriculture, horticulture and natural resources programs offered throughout the year.

- Planted agronomy research plots in collaboration with Morrow Soil and Water Conservation District for the past five years and the data is published in the Ohio State eFields <https://digitalag.osu.edu/efields>.
- Carri trained a new group of Master Gardener Volunteers bringing the volunteer total up to 21. The Master Gardener Volunteers offer gardening and natural resources classes that are free to the public. Over the last five years they have offered 149 classes that they have taught, Carri has taught or they have invited speakers in to teach at. They have four pollinator research gardens.
- Carri has recertified over 300 private pesticide and fertilizer applicators over the last five years.
- Carri has certified and or recertified over 100 cattle producers for Beef Quality Assurance.
- Two Small Farm Colleges have been held and had over 230 participants.
- Over 1200 questions answered via email, site visit, phone call or walk in during the last five years.
- In collaboration with Morrow County Farm Bureau we offered a Sheep 101 field day with over 30 folks in attendance.
- We offered farm succession planning classes with over 30 folks in attendance.
- Hosted an Agriculture Chemical disposal day where 11,122 pounds of chemicals both liquid and dry were collected. There were 16 pallets that contained 3x3x3 boxes full of chemicals and four pallets of barrels (13 barrels).
- We like to meet the needs of Morrow County residents so please if you would like to see a program offered that we haven't offered in a while please reach out to us.

Selover Library 2024 Garden Series

OSU Extension - Morrow County presents the Selover Library Garden Series. The OSU Extension - Morrow County Master Gardeners and Carri Jagger, Agriculture and Natural Resources Educator, will be teaching a monthly horticulture class at the library.

Classes are open to anyone who wants to learn and will be held at the library at 31 OH-95, Chesterville, OH 43317.

Tuesday, February 13th @ 6:00 pm: The Basics of Rain Gardening

Thursday, March 21st @ 10:00 am: All About Mushrooms-Growing & Cooking

Tuesday, April 23rd @ 6:00 pm: Creating A Spring Flower Arrangement-Demonstration

Thursday, May 23rd @ 10:00 am: Selecting Annuals for Season Long Success

Tuesday, June 25th @ 6:00 pm: Selecting Hydrangeas for Your Landscape

Thursday, July 25th @ 10:00 am: Growing & Using Daylilies in Your Yard

Tuesday, August 6th @ 2:00 pm: Fall Is For Planting: Trees, Shrubs, Bulbs & Garlic

Wednesday, September 25th @ 2:00 pm: Therapeutic Horticulture

Thursday, October 17th @ 10:00 am: Fall

Garden Care: Clean-Up, Seed collecting & Saving

Thursday, November 21st @ 10:00 am: Thanksgiving, Christmas & Easter Cactus Extravaganza

Wednesday, December 4th @ 2:00 pm: Poinsettia, Cut & Live Tree Care

Questions? Email or call Carri at 419-947-1070 or jagger.6@osu.edu.

Event Sponsors: Selover Library and OSU Extension - Morrow County.

Perry Cook Memorial Library 2024 Garden Series

OSU Extension - Morrow County presents the Perry Cook Memorial Library 2024 Garden Series. The Morrow County Master Gardener Volunteers will be teaching a variety of topics at this year's monthly gardening series.

Classes are free and open to anyone that wants to learn and will be held at the library at 7406 CR 242, Mt. Gilead, OH 43338.

February 8th @ 2:00 pm: All About Alpacas

March 14th @ 2:00 pm: Mushroom Madness - Growing and Cooking

April 11th @ 2:00 pm: Spring Flower Arrangements - Demonstration

May 9th @ 2:00 pm: Selecting Annuals for Season Long Success

June 13th @ 2:00 pm: Selecting Hydrangeas for Your Landscape

July 11th @ 2:00 pm: Growing and Using

Daylilies in Your Yard

August 8th @ 2:00 pm: Therapeutic Horticulture

Questions? Email or call Carri at 419-947-1070 or jagger.6@osu.edu.

Event Sponsors: Perry Cook Memorial Library and OSU Extension - Morrow County.

Upcoming Events:

• **April 17th @ 6:30 p.m. @ the AgCredit Building - Timber Harvesting and Marketing** taught by Katie Gerber and Kathie Smith

• **May 14th @ 6:30 p.m. Growing Mushrooms at Home - You will learn the basics of growing mushrooms at home and you will get to make a container to grow your own mushrooms.** Price to be determined and pre-registration required. Watch our website and facebook page for more details.

• **May 15th @ 6:30 p.m. Pond Clinic @ 3277 County Road 172 Cardington Ohio 43315.** The clinic will be taught by Eugene Braig OSU Program Director, Aquatic Ecosystems. Eugene will be covering moss, algae and weed control as well as general pond management and care. Watch our website and facebook page for more details.

If you would like to sign up for weekly extension Agriculture, Natural Resources and Horticulture updates, they will come directly to you email and you will be able to view timely articles and events that are happening in extension around the state. Please follow this link <https://go.osu.edu/mocoag> or scan the QR Code to subscribe.

Newborn Calf Care & BQA Re-certification to be held Feb. 27

Dr. Kevin Jacque from the Marysville Veterinary clinic will present about newborn calf care on Feb. 27 at 6:30 pm at the 2nd Floor Conference Room at 5362 US Hwy 42, Mt. Gilead, OH 43338. Topics will include vaccinations, and newborn calf management. This session will also qualify for BQA Re-certification.

The Morrow County Cattleman's will be sponsoring dinner so we ask that you please RSVP with the Extension Office by February 23rd.

Please RSVP to the OSU Extension Office - Morrow County or jagger.6@osu.edu.

Junior Fair Board Update

The Morrow County Jr Fair Board is already hard at work preparing for this year's fair. The Steer Weigh-In took place December 2nd. Thank you to all that helped it run smoothly. This year's board is run by our new officer team: President- Brooklin Poppell, Vice President- Grant Sayers, Secretary- Emily Mattix, Treasurer- Morgan White, Assistant Sec/Treas – Raelyn Fulk, Historian- Ava Walker, and Parliamentary- JD Albert

Morrow County Jr Fair Changes for 2024

- New breeds must be approved by December of the previous year, no new breed classes after January 1st. Exhibitors must enter a breed that is listed in the fairbook, or AOB
- Showmanship must be an animal entered and exhibited in the Jr fair by the same exhibitor. The animal cannot be checked in under another exhibitor.

- Added BBR to #3 Rule now reads “A given exhibit can show in only one class, except for showmanship, BBR, in a group or the horse area. For example, an animal cannot be shown in a Market and Breeding Class.

Beef Department:

- Monday of Fair Weigh In will begin at 4pm.
- Starting in 2025 there will only be 1 entry per division in BBR.

Dog Department:

- The dog show will take place between skillathon and fair.

Goat Department:

- All Market Goats must have their milk teeth intact at fair and born on and after January 1st of the current year.

Sheep Department:

- Lambs are suggested to be born after January 1st and must have their milk teeth at the fair.

- No more than one tack pen per family, items and supplies must be specie specific, all feed must be secured for animal safety, storage units in aisles must not interfere with day-to-day business and number of tack pens will be finalized on Monday evening based on the number of animals brought to the fairgrounds.

- Tack pens will follow general rule #14 on cleanliness.

- Natural to be changed to natural colored wool

- Romney has been added under Wool Breeds and Dorper/White Dorper under Meat Breeds

- Wool breeds must have at least 1 inch of wool growth upon arrival on the first Monday of the fair.

Rabbit and Poultry Departments:

- Jr Fair Board Members will check pens in the barn at 10am, 2pm, and 6pm daily during the fair.

Livestock Sale

- Sale Cards will now be submitted online.

Important Dates

May 1st - Jr Fair Books and Hog Tags will be available for pick up.

June 1st - Feeder Calf Weigh-In

June 7th - Due Date for Entries

Office Hours and Contact Info

Normal Office Hours:

Saturdays from 9am-2pm

Extra Office Hours to help with Fair Entries:

Monday, June 3rd from 5pm -7pm

Friday, June 7th from 2pm-7pm

4-H NEWS

4-H Volunteers Help Morrow County Youth Thrive!

Since 1902, 4-H volunteers have helped inspire curiosity, build lifelong skills, fuel adventure and grow leaders. Volunteers have the knowledge, experience, and skills that help youth thrive.

In 2023, 215 adult volunteers and 171 teen volunteers helped lead our Morrow County 4-H Program!

A recent study determined that the median time commitment per volunteer is six hours per week during the summer months. If we count just four busy months per year, that's six hours x 16 weeks x 215 adult volunteers = 20,640 volunteer hours (minimum).

What if you had to pay them? Pay them for their time, fuel, donated supplies etc. According to the "Independent Sector Value of Volunteer Time" our volunteers minimum hours would cost the community \$602,068.80!! Teens at a minimum wage would cost \$136,800!

Candida Doubikin and Gena Dutton

Volunteers visit during the 4-H Volunteer Appreciation Dinner. L to R Facing: Jan Johnson, Kim Hessey, Bill Hershner

Ben and Carol Holsinger and Joanne Trainer show their smiles at the 4-H Volunteer Appreciation Dinner.

Volunteers celebrating Jim Helt's National Hall of Fame Induction.

2023 MORROW COUNTY 4-H VOLUNTEERS

Morrow County 4-H is for you!

4-H Projects -

As a 4-H Member, you will choose a project based on your interest. Your project is like a hobby that you work on and learn about the fun way – by doing! See the 100's of projects in the 4-H Family Guide.

Opportunities Available to 4-H Members –

Along with joining a club and completing 4-H projects, 4-H members have other opportunities:

- Exhibiting your project at the Morrow County Fair
- Attending 4-H Camp!
- Project Clinics, Workshops, Teen Leadership Opportunities, and Conferences.

Joining A 4-H Club!

- 4-H Clubs are located all over Morrow County!
- Each club decides the best place and time to meet. Go to the link below for a list of our 4-H Clubs.
- Enrollment deadline is April 30th.
- Youth must be in 3rd grade and at least 8 years old by January 1 or 9 years old by January 1, any grade level.

How to find a club, projects etc.! Go to the following link or call our office.

FOR PARENTS: Why 4-H?

Benefits are Endless!

Learn new Skills!

CFAES

OHIO STATE UNIVERSITY EXTENSION

What do 4-H Parents, Volunteers, and Alumni say about being in 4-H!

I love seeing kids come out of their shell when they participate in 4-H club activities!

Kids meet other kids from across the county and become long time friends through 4-H.

I love my 4-H family

4-H develops life skills.

Unique opportunities.

I love seeing members smiles when they accomplish things!

There are so many new opportunities!

I met my best friend in 4-H!

Teaches Independence.

I see kids succeed in 4-H who may not in a school classroom.

I am a better public speaker because of 4-H!

I got a job because I was a 4-H member!

4-H NEWS

Morrow County Youth Benefit from 4-H in Many Ways

By Amanda Staley, 4-H Educator

The number of youth contacts in Morrow County involving Science, Technology, Engineering, and Math(STEM) education and College and Career Readiness education has grown exponentially over the past three years. New partnerships have been formed, new initiatives have been created, and I'm asked regularly to do programs within the county schools.

Let's take a look at just some of the programs being offered.

In the chart below, I have broken down my programs into five categories. The numbers represent how many youth, and some adults, I've taught over the past three years. If one person attends three different programs, they would have been counted three times.

4-H CARTEENS

4-H CARTEENS is a traffic safety program for juvenile traffic offenders. Teens are referred to the class from the local court system. This class is taught by Amanda Staley, 4-H teen leaders, and an Ohio Highway Patrol Officer. The goals of 4-H CARTEENS include:

- reducing the number of repeat juvenile traffic offenders,
- decreasing the number of teen traffic offenders, and
- increasing teen awareness of traffic/vehicular safety.

School Enrichment

School Enrichment is when I go into schools to teach. Many times, I'm conducting activities that go along with what youth are currently learning in their class. These activities help them better understand the information they are learning while having fun doing it.

Several different topics are taught but some of them include solar systems, life cycles, electricity, kinetic and potential energy, making music with GarageBand, pollinators, sustainability, career exploration, computer coding, biosecurity, and so much more.

One of my favorite programs this year was taking what I've done in the past with the career exploration workshops and expanding it to include all the 9th graders in the county. Along with the Morrow County Business Advisory Committee's Action team, we created a day where they all gather to explore careers in Agriculture, HealthCare, Public Service, Skilled Trades, and Technology. They picked one career track to do hands-on activities to learn more about what is available to them in the future.

CloversCode

CloversCode includes programs I've taught using equipment that was given to us through a \$24,000 Apple grant that provided us 25 iPads, 15 Sphero Bolts, 2 Meebots, 25 Apple pencils, 25 Apple chargers, and a large iPad charging bank.

Some of the topics taught using these items are computer coding, robotics, how to make music electronically, and picture editing.

Community Wellness and Leadership

This area includes programs that are not taught in schools but rather at workshops, conferences, 4-H Club meetings, or as an invited

speaker to various organizations. Some of the requested topics have included civic engagement, Navigating the Effects of Sugar using Sphero Bolts, coaching youth interested in public speaking, career exploration and more.

Science, Technology, Engineering, and Math

Programs in this area take place at camps, workshops, community events, or 4-H club meetings. This is a diverse topic area but includes topics like The Science of Ice Cream, Engineering a Marble Maze, building trebuchets, pollinators, animal sciences, and much more.

Grants

Each year I have been fortunate enough to be awarded a variety of grants that I can use toward programs for our youth. In 2021, I received the Apple grant that provided technology to be used in many of my programs(explained earlier in CloversCode). I've also been awarded money to

take youth on trips to Denver to explore various career opportunities and Washington D.C. to attend either the ignite by 4-H conference or the National 4-H AgriScience Conference.

This year I was awarded a \$15,000 grant from National 4-H that was sponsored by Corteva. This grant is going to impact many people. Ten youth will be learning about pollinators and their importance to food security. Once training is complete, they will be expected to teach 250 youth about pollinators at schools, camps, libraries, or Earth Day Celebrations.

These funds will also pay for a new, beautiful pollinator garden that will be installed at Perry-Cook Library in Johnsville. The public can visit it anytime and the garden will include educational signs throughout to help educate the public about pollinators.

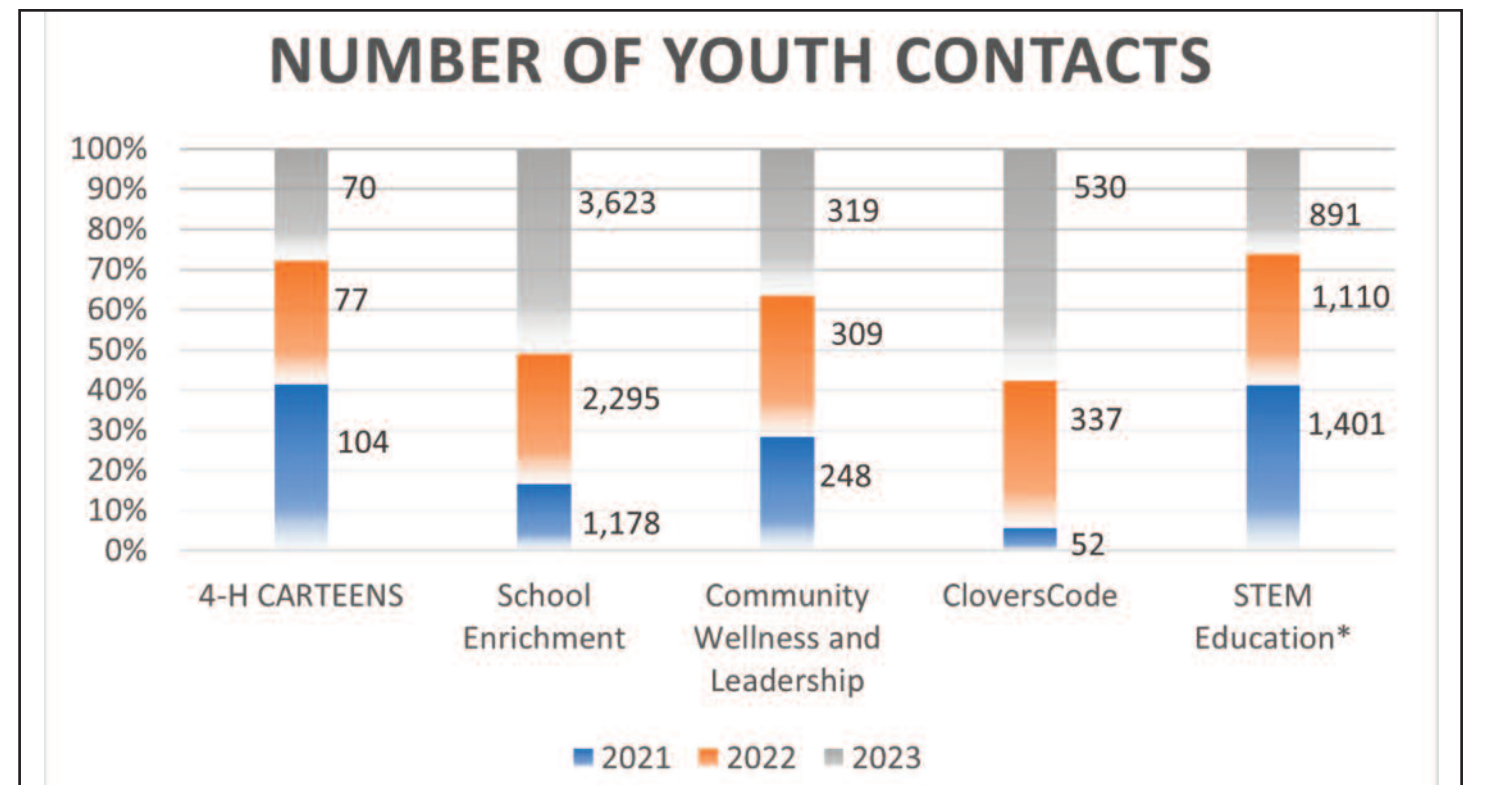

In addition to the \$15,000, National 4-H and Corteva will be paying for six youth and two

adults from our county to attend the ignite by 4-H conference in Washington D.C.

Questions?

If you have questions about any of the programs above or if you'd like Amanda to bring a program to you, contact her at staley.35@osu.edu or 419.947.1070

FCS statistics and feedback 2023

In 2023, the Family and Consumer Sciences (FCS) program area in Morrow County provided education for a total of 1,621 direct contacts with participants, including individual instruction. While several programs were open to the community and state-wide some programs were provided to participants from specific organizations, agencies, and schools. Some of these include Seniors on Center, Morrow County Employee Wellness Program, Common Pleas Court, and Morrow County Board of Developmental Disabilities. Through collaborative efforts there were FCS programs conducted with libraries. We have an on-going partnership with United Way of Morrow County in which Director Jodi Hays coordinates and co-teaches financial education programs for youth and adults such as Real Money. Real World., Money 101: Keys to Financial Success and Manage Your Money.

Individual Instruction

In 2023, I gave instruction via electronic communications, telephone contacts, mailings, and face-to-face interaction outside of a standard classroom setting related to Healthy Finances, Healthy People, and Healthy Relationships totaling 269 direct contacts.

- Health & Well-being = 34 direct contacts
- Financial Wellness = 89 direct contacts
- Home Food Preservation & Food Safety = 95 direct contacts
- Pressure Canner Inspection & Dial Gauge Testing = 53

Health & Well-being Programs

In 2023, I taught 27 health and well-being programs totaling 534 direct contacts with participants.

These programs include:

- LHLW Email Wellness Challenge - Gather Your Gratitude (Six-week program series)
- Trends in Food & Nutrition
- Adult Mental Health First Aid (Six-hour program)
- Camp Public Health - Outdoor Safety
- Beat the Heat
- 5th Grade Safety Day-Sun Safety
- Sustainability and You: What is it and what can I do?
- LHLW Email Wellness Challenge: Think Green...It's Not Just a Color (Six-week program series)
- Sun Safety Protect Your Skin & Dermascan Screenings
- Stress Less Meal Prep

For several of the programs an evaluation was given. Here are outcomes from those anonymous evaluations.

Short Term - Change in Awareness Outcomes:

Sun Safety Protect Your Skin & Dermascan Screenings (students)

- 78% of participants reported learning new information.
- 89% of participants reported they will do something differently as a result of this program.

Sustainability and You: What is it and what can I do?

- 100% of participants reported learning new information.
- 100% of participants reported they will do something differently as a result of this program.

Trends in Food & Nutrition

- 100% of participants reported learning new information.
- 75% of participants reported they will do something differently as a result of this program.

Live Healthy Live Well Email Wellness Challenges

Think Green...It's Not Just a Color - Spring Into Wellness

- 93% of participants reported learning new information.
- 93% of participants reported actually adopt one or more recommended practice as a result of this education.

Gather Your Gratitude

- 90% of participants reported learning new information.
- 93% of participants reported planning to adopt one or more recommended practices as a result of this education event/session.

Beat the Heat

- 100% of participants reported learning new information.
- 87% of participants reported they will start, do differently, or stop doing as a result of this program.

Financial Wellness Programs

In 2023, I taught 37 financial wellness programs totaling 553 direct contacts with participants.

These programs include:

- Financial Education: Holiday/Seasonal Spending
- Financial Technology-Just the basics, please!
- Money 101 Keys to Financial Stability (8-hour program series)
- Financial Education: Financial Terms
- Consumer Scams
- Real Money. Real World. (6-hour program series) = A 4-H Youth Development and FCS col-

laborative program series

For several of the programs an evaluation was given. Here are outcomes from those anonymous evaluations.

Short Term - Change in Awareness Outcomes:

Real Money. Real World.

Morrow County "Positive Change" Outcomes for combined schools Cardington-Lincoln School District-8th Graders and Mount Gilead School District-8th Graders = Total 125 students:

- 75% = The amount of deductions taken from a paycheck for taxes and other withholdings.
- 66% = The costs to care for a child.
- 73% = Get more training or education after high school.
- 80% = Have a plan for my money that includes both needs and wants.
- 83% = Think about how my spending impacts other people.
- 89% = Think through how my spending impacts other opportunities and choices.
- 71% = Open a savings account.
- 72% = "A Lot" ...believe that participating in this program gave me a better idea of what is involved in earning, spending, and managing money.
- 70% = "A Lot" ...believe that participating in this program will help me in the future.

FAMILY & CONSUMER SCIENCES

Statistics and feedback 2023

Continued from page 10

FinTech: Just the basics, please!

Combined outcomes of four program sessions:

- 89% reported learning new information.
- 72% reported they will share this information with someone.

Food Safety & Home Food Preservation Programs

In 2023, I taught 19 food safety and home food preservations programs totaling 199 direct contacts with participants.

These programs include:

- ServSafe Food Manager Certification(15-hour program series with examination)
- Basics of Canning and Other Methods of Vegetable Preservation
- Home Food Preservation-Canning for Newbies
- Occasional Quantity Cooks
- Food Safety Basics-Camp PEPA
- The Science Behind Food Preservation Methods
- Top 5 Considerations for Preserving Food
- Harvesting and Preserving Produce
- Food Preservation Q & A

For several of the programs an evaluation was given. Here are outcomes from those anonymous evaluations.

Short Term - Change in Awareness Outcomes:

ServSafe Food Protection Manager Certification Program

In the past five years, over 30 businesses, organizations, and schools sent their employees to the ServSafe Food Protection Manager Certification course in Morrow County. A total of 105 participants attended the 15-hour course, passed the exam, and were certified.

ServSafe Food Protection Manager Certi-

fication Program Evaluation for 2023

Percentage of participants that gained knowledge at least one level or more:

- 100% = I have a good understanding of bacteria, viruses, parasites and fungi and their impact on the development of foodborne illness.
- 67% = I am comfortable talking with coworkers about increasing the safety of food in my establishment.
- 100% = I clearly understand all of the ways that food can become cross contaminated with other food as well as contaminated with non-food sources.
- 83% = I understand the impact of time temperature abuse and its impact on allowing growth of microorganisms in foods.
- 71% = I understand how to properly wash hands and how to communicate proper hand washing to others in the workplace.
- 33% = I understand that the decisions that I make about receiving food from good suppliers can improve the safety of food in my workplace.
- 83% = I understand that allowing food to remain in the temperature danger zone no more than 4 hours can reduce the possibility of foodborne illness.

Food Preservation O & A Evaluation

- 100% of participants reported learning new information.
- 98% of participants plan to use they learned.

Food Preservation Webinar Evaluation

Top 5 Considerations for Preserving Food (33 pageviews following the webinar from the time period of April to December 2023)

- 87% of participants reported learning anything new from this webinar.
- 97% of participants plan to use anything

they learned from the webinar.

Harvesting and Preserving Produce

- 100% of participants reported learning new information.
- 86% of participants plan to use what they learned.

The Science Behind Food Preservation Methods

- 100% of participants reported learning new information.
- 100% of participants reported they will start, do differently, or stop doing as a result of this program.

Canning for Newbies

- 100% of participants reported learning new information.
- 79% of participants reported they will start, do differently, or stop doing as a result of this program.

Five Year Extension Instruction

The following data provides a summary of group teaching activities that I have taught over the past five years; August 2018-July 2023. The participants include Extension professionals and clientele, both adults and youth. Most of this teaching was in Morrow County and nearby counties. Group teaching includes classes, workshops, seminars, and virtual programs.

Financial Wellness

Total number of participants: 1,422

Instances of courses offered: 86

Health and Well-being

Total Number of Participants:

Instances of Courses Offered: 172

Food Safety and Home Food Preservation

Total number of participants: 1,919

Instances of courses offered: 154

Grand Total of Participants: 7,281

Grand Total of Courses Offered: 412

Individual Instruction

As an Extension Educator serving the Family and Consumer Sciences programming area, I answer questions and provide information to individual inquiries via email, phone calls, office visits, or at educational events including hands on pressure canner inspections and dial gauge testing over the past five years; August 2018-July 2023. These individual instruction opportunities can last anywhere from a few minutes to a few hours, depending on the nature of the request.

Teaching topics include:

Safety and Home Food Preservation (Canner Inspections/Dial Gauge Testing)

Total Number of Contacts: 462

Financial Wellness

Total Number of Contacts: 77

Health and Well-being

Total Number of Contacts: 48

Total Individual Contacts: 587

Comments from the fair booth

Comments that came from the OSU Extension booth at the Morrow County Fair, 2023

Adult comments

"The Extension office is a wonderful place!! They will help anyone with information and answers all my questions."

"4-H, Master Gardeners, Cooking classes"

"Through the 4-H program, it allowed me to learn new things by hands on, it has given me so many friends. As a community volunteer, it has allowed me to help youth to develop life skills that are so desperately needed: leadership, agriculture knowledge, and community service."

"Great experiences in 4-H as a member and advisor! Lead me to OSU and a degree in Home Ec."

"If I have a garden question, I call Carri Jagger."

"It is helpful for growth for me and my community."

"Educational opportunities for adults and kids"

"I got my start in 4-H as a baby. My mom being an advisor – 10-year member – 3-year Extension student assistant – 31 years FCS Teacher"

"A place to go for Agricultural needs, soil testing, forestry, help with thins for 4-H and fair. A place to go for good agricultural information. We hold our Draft Horse Club meetings in their building."

"I have been involved in 4-H since I was 5 (34 years now) and it has done wonders for me. Educated and confidence building,

and I cannot wait to get my almost 5-year-old son involved in it. And I love seeing Becky every year at the fair!"

"Good education close to home."

"Information – canning/freezer fruits/vegetable health."

"Great education of farm animals – farming – bug and pest control, soil erosion knowledge, Carri Jagger. The environment and so much more. Our County Office is so involved in the county. Thanks for what you do."

"Help with all county people if they ask."

"Keep me informed on what is going on with the Extension office."

"Help with 4-H and making it so the kids can show."

Youth Comments:

"4-H info"

"They help me learn about quail."

"It gives education to students."

"Ohio State Extension is important to me because without it there would be no 4-H program."

"I am one of the youth Amanda has poured countless hours into through 4-H trips, conferences, facilitation, and more. So many of my successes through high school, college, and now are a direct result of the time she has invested in me. There's no better person than her to be working with the community's youth in this capacity!!"

CFAES provides research and related educational programs to clientele on a nondiscriminatory basis. For more information: <http://go.osu.edu/cfaesdiversity>.

THANK YOU Central Ohio Farmer's Co-op

for over 39 years of donations toward 4-H project books!

Approximately \$1,200 each year is donated! Thanks for helping make the best better!
